

Bailey

Hi, my name is Bailey. I am a Black Lab mix and I come from Alabama. I was rescued by a really nice person who drove me to Tallahassee from a very noisy place in Alabama, and then I met my mom and dad who love me very much and take good care of me.

I love dog treats and maybe you can feed me a tiny one if I get to meet you. I promise to be gentle when I take it from your hand. You can also check out my spotted tongue because I think I am the only dog in the world that has one like mine! I also would love to be brushed and then I can lay next to you with my paws crossed.

About Bailey: My name is Bailey. I am a male, Black Lab mix. I don't know my actual birthday, so I celebrate my birthday on February 17, the day I came to live with my mom and dad. My veterinarian thinks I was born in 2010.

Marlene and Bailey

This is my mom, Marlene. We get to go on visits to lots of places and I love it when I see my mom take out my special collar because that is when I know I am going someplace really special. We go to schools to help children read and we also visit people when they are in the hospital. I hope I get to meet you!

Love, Bailey

Team Activities: My mother and I love to meet with children, adults and seniors. We visit at elementary schools, senior centers, hospitals, rehabilitation centers and courts.
