

# Casey

Hi my name is Casey. I was one of 10 puppies in a litter with 6 boys and 4 girls. My daddy found me when I was 5 weeks old and picked me over my sisters. He had to wait 3 weeks before taking me home for I was too young to be taken away from mommy. To keep track of my brothers and sisters, the breeder who owned us placed a pink nail polish mark on our bodies. My mark was on my rump. Thank goodness my daddy decided to name me Casey. Imagine having a name like rump.

About Casey: My full name is Casey. I am a female, Golden Retriever. My birthday is April 23, 2003. I am a member of my daddy's family of 2 children and 7 grandchildren. All think that I love each of them best. Our family also has another dog named Casper and a cat named Reba.

# Casey and Don

This is my daddy. His name is Don. He will come with me to visit. Each day he takes me and Casper to the dog park where we walk and play for about 60 minutes. Being an animal therapy dog is what I want to do. Many say I am smiling all the time and love to meet new people. I hope we can meet someday and play together.

Love, Casey

Team Activities: Daddy and I love to meet with children, adults and seniors. When we were younger my daddy and I would often run road races together. My daddy volunteers at the animal shelter and takes care of dogs that need homes like mine.
