

Tate

Hi, my name is Tate. I am a Golden Retriever/Labrador mix. I was born in California and flew all the way across the country to Florida. My plans were to become a Service Dog with Canine Companion for Independence, but instead of getting an A in the class, I got a B, so I decided I would go live out my life with my puppy raisers.

About Tate: My name is Tate. I am a male, Labrador/Golden Retriever. My birthday is October 27, 2009. I am a gentle soul, I love everybody and I even love Cats.

Tate and Terri

This is my mother, Terri, she is very nice to me. We live on Dog Island, so I spend every day playing on the beach. I love to wade in the water and see if I can catch a fish. When I am not playing on the beach or fishing, I love to visit people at the hospital or the courthouse.

Love, Tate

Team Activities: My mother and I love to meet with children, adults and seniors. We visit at courthouses, hospitals, and assisted living/rehabilitation centers.
